A Continual Strain.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists.—W. T. Brooks.

Healthy Mothers.

Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Boschee's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough-racked consumptive. New trial bottles, 25c; large size 75c. At all druggists.—W. T. Brooks.

ATTACKED THE FORTS.

The Japanese Were Repulsed at Port Arthur.

They Landed Strong Reinforcements at Dalny and May Storm the Fortress, Probably Assisted By Japanese War Ships.

St. Petersburg, Sept. 21.—Interest is again concentrated upon Port Arthur, owing to the receipt from foreign sources of news that a general storming of the fortifications there has begun. A few belated telegrams from Gen. Stoessel, the commander at Port Arthur, published Tuesday afternoon recording the repulse of the Japanese and continued attacks, strengthen confidence in the ability of the defenders to hold out despite the furious onslaughts being made on them. The last attack mentioned by Gen. Stoessel took place the night of September 14 and was directed against redoubt No. 8, which protects the water supply of the city. The redoubt is about two miles beyond the line of permanent forts and the attack upon this shows that the Japanese were not then within striking distance of the main fortress.

Reports from Shanghai that some of the defenses had fallen into the hands of the Japanese as a result of a general assault on September 20 are not confirmed from Russian sources.

The telegrams brought to Chefoo by Prince Radzivil have not yet reached the war office. It is understood that these dispatches contain details of the landing of strong Japanese reinforcements at Dalny, which would tend to confirm the belief that it is the intention of the Japanese to storm the fortress and that the warships will probably take part in the attack.

Chefoo, Sept. 22.—Mrs. Anna Kravtchenko, the English wife of a Russian army officer, who arrived here the night of September 17 with Lieut. Prince Radzivil from Port Arthur, is the first woman to run the blockade from the Russian stronghold since the Japanese increased their vigilance to prevent egress from the port. Her trip was rendered extremely perilous because she came out with the prince and his companion, Lieut. Christoff, who carried messages from Lieut. Gen. Stoessel, the commander at Port Arthur, to Gen. Kuropatkin. Both these officers were disguised and had they been captured by the Japanese they certainly would have been executed.

In an interview Mrs. Kravtchenko said: "We left Port Arthur at 8 o'clock the night of September 15. There was a good wind and the moon was bright. We were successful in avoiding the danger of the first Japanese blockading line. We came up to the second line when the moon was under a cloud. Searchlights were flashing on all sides, but our junk was not discovered. We suddenly discovered ourselves near another junk with a Japanese crew on board. They presumably were pirates, but we outsailed them and drew away."

"At 6 o'clock the next morning we saw a steamer coming our direction. She had the appearance of a cruiser and I was terribly frightened. When we saw the cruiser Prince Radzivil and Lieut. Christoff went below. I stretched myself out on deck and covered myself with dirty blankets. Chinese were lying at my feet and at my sides and for nearly an hour, although nearly smothered, I kept my position. I never uttered a more thankful prayer than when I was informed that the steamer we had seen was a Red Cross vessel and that her captain had no intention of overhauling us."

"The wounded men recover quickly from the wounds inflicted by Maxim projectiles and by the bullets of the Osaka rifle, but the wounds resulting from explosive bullets are awful and recovery is impossible."

"The old town of Port Arthur is almost entirely wrecked. The streets are filled with holes made by exploding shells. The loss of life in Port Arthur from the bombardments has been remarkably small. Once I counted 57 Japanese shells fired at a Russian battery, not one of which reached its mark."

St. Petersburg, Sept. 22.—There is further delay in the receipt of decisive news from the front. The situation at Port Arthur remains a blank, though it is felt that important developments may be even now occurring there. The movements in the north are still of a tentative and preparatory character on both sides, which have not yet crystallized into a definite clash of forces at any one point. A resumption of the Japanese advance is now expected to occur any day.

THE BUILDERS STRIKE.

The President of the Building Trades Alliance Resigns.

New York, Sept. 22.—William E. Nason, president of the Building Trades Alliance, resigned his position Wednesday as head of the forces opposing the Building Trades Employers' association in the strike and lockout in this city and quitted the alliance, taking his own union, the Reliance Labor Club of Marble Cutters, back to work immediately. Nason's union will go to work Thursday under the general arbitration plan which was signed last year with the employers' association by the Reliance club.

President Nason succeeded Philip Weinsheimer, who is under charges of extortion. For nearly two months President Nason has endeavored to restore peaceful conditions between the unions and the employers.

Wednesday night Mr. Nason said that he will not again become affiliated with the Building Trades Alliance.

"It is true that I have resigned and that there are several reasons for my resignation," he said. "When I accepted the office of president of the alliance, it was with the idea that I could in some way serve the organization by bringing about a peaceful termination of the difficulties which then existed and which still exist between the men and the bosses."

"I did not realize until it was almost too late the value the alliance had by means of the two thirds vote required to pass favorably on any action the executive might wish to take. There is no telling where or when this present strike and lockout will end so long as the men maintain their present attitude and the bosses refuse to meet the men."

EASTLAND ACQUITTED.

Court Failed to Connect Him With the Holbert Lynching.

Indianola, Miss., Sept. 22.—The trial of C. C. Eastland for the murder of Luther Holbert and his wife by causing them to be burned at the stake, was suddenly ended Wednesday afternoon when after the evidence was all in Senator McLaurin made a motion for peremptory instructions to the jury for the discharge of the prisoner on the ground that not a scintilla of evidence tending to prove that Eastland had been in any way a party to the lynching or had in any way aided or abetted the burning had been introduced.

District Attorney Neill arose and said that in view of the failure of the witnesses to connect Mr. Eastland with the lynching he would ask the court to grant Senator McLaurin's motion. The judges thereupon discharged Mr. Eastland and a storm of applause broke out from the vast crowd, which was promptly checked by the judge. Mr. Eastland was almost carried bodily from the court house.

A BIG UNDERTAKING.

The Proposed Trans-Alaskan-Siberian Railroad.

St. Louis, Sept. 22.—The most important subject presented to the members of the international geographical congress which convened Wednesday at the exposition was the proposed trans-Alaskan-Siberian railroad, which is of a wider scope than any undertaking of its kind in the history of engineering. Loeq de Lobet, a member of the geographical society of Paris and the projector of the railroad, will spend the coming winter endeavoring to effect final arrangements for projecting the road through Russia. The approbation of the czar of Russia, President Roosevelt and several European sovereigns relative to the trans-Alaskan-Siberian railroad has been secured.

RAN INTO DYNAMITE.

Electric Car With Thirty-Two People Aboard Blown Up.

Nine Were Killed and Nineteen Seriously Injured—A Score or More in the Vicinity of the Explosion Were Hurt.

Melrose, Mass., Sept. 22.—An outward-bound electric car containing 32 persons was blown to pieces in this city Wednesday night by striking a 50 pound box of dynamite that had fallen off an express wagon. Six persons were killed outright and three more died of their injuries within an hour. Nineteen others on the car were taken to the two hospitals suffering from severe injuries. At least a score of persons in the immediate vicinity of the explosion were hurt by flying glass and splinters.

The front dashboard of the car was hurled more than 50 feet. The immediate vicinity presented a fearful spectacle. The ground was strewn with legs, arms and other portions of human bodies. So great was the force of the explosion that two men standing in the door of a store 50 feet away were severely injured by the flying pieces. All but ten feet of the rear platform of the car was blown into small bits. Windows in the vicinity for a distance of a quarter of a mile were broken by the force of the explosion.

The express wagon was driven by Roy Fenton, who discovered that the box had dropped off and dashed back to take it off the track, but before he got within a hundred yards of the box the car came along and was blown up.

The police arrested Roy Fenton, driver of an express wagon. Fenton, it was learned, was carrying two 50 pound boxes of dynamite on his wagon. The car contained mostly working men on their way to their homes in this city.
